

Barrier tape Standard

Characteristics

Barrier tape is often used for marking forbidden or dangerous places, but it can also be used in setting out a course or at events such as trade shows and store openings.

Data	
Material	LDPE (Low-density polyethylene)
Thickness	30 μ
Warranty	6 months
Colours	Red/white
Width x length	75 mm x 500 m
Core diameter	76 mm
Tensile strength	1.25 kg
Elongation (longitudinal)	150%
Packaging	Individual dispenser box
